January and February
Limited seating!*

Manitoba Lyme January Meeting - Dr. Dean Schrader, ND

Thursday, January 25, 2018 from 6:30 PM - 8:30 PM

At the January meeting, **Dr. Dean Schrader, ND** from **Centre for Natural Medicine** will talk on the changing paradigm in Lyme Disease Treatment. He will focus on various contemporary and time tested therapies to facilitate the patient's own healing. Medical Ozone Therapy, Low Dose Immunotherapy (LDI) and addressing the importance of biofilm will be discussed in detail.

After the talk we'll have a question and answer period and also a networking time so you can touch base with others. The Manitoba Lyme Support group is a place where you can share your experience on how Lyme has impacted your life. We welcome those with Lyme but we also welcome those touched by Lyme who want to support their friend or loved one.

Doors will open at **6:00** for those that want to join us a bit earlier. Please **arrive by 6:15pm** so that we can sign everyone in and start by 6:30pm sharp.

We ask that you go **SCENT FREE** in respect for those that have sensitivities.
